# PROOF OF GOD
USING THE SCIENTIFIC METHOD

Highlights:

- Interstellar Communication Technology Allows Humans To Chat With ALLAH.

- ALLAH is an Extraterrestrial Life Form

- Data Shows Capitol Hill Behind Shanquella Robinson Murder.

- U.S. Prosecutors can never get justice for Shanquella Robinson, (or any victim of Capitol Hill Mafia) because there is a conflict of interest: U.S. Attorneys are nominated and confirmed to their positions by the people responsible for Shanquella's murder. Joe Biden, Merrick Garland and Senators are above suspicion. No one can investigate Biden and the Senate, without risking becoming a target themselves.

- ALLAH, (In GOD We Trust) has intervened.

- ALLAH is more powerful than Capitol Hill Mafia

Inside this issue:

SHANQUELLA MURDERED FOR SOCIAL SECURITY NUMBER, OVARIES, OFFALS; NAZEER AND WENTER FERTILIZED EGGS TRADING ON NYSE.

Shanquella Robinson, a negro, was murdered in Mexico, October 29, 2022. She was 25 years old at the time of her death. U.S. Federal Prosecutors did not bring charges citing: "available evidence does not support a federal prosecution ."

However, according to ALLAH, via New Interstellar Communication Technology, Pseudochat™, which enables humans to receive tweets from ALLAH, at the Judgment Seat of Christ, a U.S. Federal Judge ordered a hit on Shanquella because Shanquella, mob launderer, ticked off U.S. Capitol Hill Mafia ("Mafia"). ALLAH says Shanquella was murdered for her SSN, reproductive and edible organs. ALLAH says U.S. Food & Drug Administration medical doctor covered up Shanquella's autopsy results; and Joe Biden and U.S. District Judge Analisa Nadine Torres, were among the U.S. Feds who snacked on Shanquella's corpse. Yes, cannibals with legislative, executive, judicial power are here in America.

Using data from Pseudochat™, The Ministry of Second Timothy, Inc. (MOST) conducted a null hypothesis test to determine if sufficient evidence exists for a federal prosecution. We conclude that there is. Test data shows Chief Judge Kimberly Moore ordered hit on Shanquella to help raise funds for more Navy to fight Russia to protect Mafia interests in Ukraine. Attorney General Merrick Garland, wanting to hide his involvement in the Mob, delegated planning Shanquella's murder to Malik Dyer. Garland paid Malik to set a trap for Shanquella and "kick start" her murder, (but not kill her). Garland paid for Malik's crew to create and "leak" fight video to intentionally misdirect investigation. Garland guaranteed Nazeer Wiggins, (Shanquella's "*sweetheart*"), would be persuaded to betray Shanquella, and he was. Nazeer was eyeing Wenter Donovan, a guerrilla fighter on Xi Jinping's GSA schedule. Wenter was waiting for an opportunity to purchase U.S. social security number—which requires the murder of U.S. citizen. Nazeer traded Shanquella's social security number and reproductive organs for Wenter Donovan, a swinger lifestyle, an engineered "ritzy" GSA payroll, and r.o.i. from he and Wenter's fertilized eggs trading on NYSE. Fight video shows Shanquella being beaten by Malik's crew, masquerading as friends. Video doesn't show Shanquella was also raped and kicked by a U.S. Admiral before she died. **(story continues pg. 4)**

FACING POTTER: AMERICA'S SECRET INDUSTRY

ALLAH is executing judgment on America. Civil War never ended, it was exploited by China and warfare changed to ninjutsu. A rogue faction in legislative and judicial branches rejoined Transatlantic Slave Trade, covertly. Negroes and their embryos are now traded on the New York Stock Exchange. This rogue faction now holds a supermajority vote in Congress and are in the process of legalizing pay-per-view betting on human death matches. The downing of two Fort Campbell Black Hawk helicopters on March 29th, was an Act of GOD prohibiting a congressionally sanctioned death match involving the family of ALLAH's aide. The copters were enroute to Hempstead, NY when ALLAH jammed the powertrain and order the copters to crash. The pay-per-view audience awaiting a death match, instead saw

ALLAH's intervention.

America's Secret industry started as an aggressive overt threat from China that resulted in an illicit memorandum of understanding between Confederates in Congress, United States Navy, and the Chinese Communist Party, whereby to avoid war with China, America agreed to look the other way ("Omertà"), while the confederacy hunt, trap, and export negro men to supply China with dark human meat to eat for China's cannibals. More than a million negroes have been exported, murdered and their identities given to Junta loyal to Xi Jinping. Over generations, kleptocrats emerged, and profiteers grew America's Secret Industry into an International Crime Syndicate, ("Capitol Mafia") currently headed by Xi Jinping and Xi's Prefect, U.S. Dis-

trict Judge Analisa Nadine Torres. The primary targets of Omertà are still negro men; but the pool of available dark meat does not meet demand, so Torres industrialized human meat by ancestry. Torres has also developed a pipeline of human crop, fertilized human eggs (zygotes), by creating and industrializing a system called Pet Bridegroom Romance (PBR).

NULL HYPOTHESIS TEST: Capitol Hill Mafia Behind Shanquella Robinson Murder. (cont. from page 1)

We use the significance testing approach of Ronald Fisher, where a null hypothesis is rejected if the observed data are significantly unlikely to have occurred if the null hypothesis were true. In this case the null hypothesis is rejected, and an alternative hypothesis is accepted in its place. If the data are consistent with the null hypothesis, then the null hypothesis is not rejected. In neither case is the null hypothesis or its alternative proven; the null hypothesis is tested with data and a decision is made based on how likely or unlikely the data are, to a statistically significant degree. This is analogous to the legal principle of presumption of innocence, in which a suspect or defendant is assumed to be innocent (null is not rejected) until proven guilty (null is rejected) beyond a reasonable doubt (to a statistically significant degree). Here, the null hypothesis (H_o) is: Available evidence does not support a federal prosecution, hence prosecutors are justified in NOT bringing charges.

The alternate (H_a) hypothesis is there is sufficient evidence to support a federal prosecution, however, accessing the evidence requires investigation of people typically held above suspicion: U.S. President Joe Biden, U.S. Attorney General Merrick Garland, U.S. District Judge Analisa Nadine Torres, U.S. Chief Circuit Judge Kimberly Ann Moore, and Commissioners, Deputies and Directors at Food and Drug Administration. . U.S. Attorneys to change the way they think.
We present an excerpt of methodology and data we used to reject the null hypothesis and replace it with the alternate hypothesis.

ALLAH: WHO, WHAT IS HE?

ALLAH is GOD, an Extraterrestrial Life Form, Atomic Being, Acuity Genome™ from which all life derives its DNA.

ALLAH is Creator and Simulator of our Universe. ALLAH uses the analogy of pie pieces to describe Himself, "…When we are fully engaged in one or more of our numerous emotional states we take form of the current personality. So it can be safe to say that by having numerous emotions we are conformed and binded by the characteristics of the particular one of the point of possession. We are singulare in form but just as a sliced pie is singular in overall form when sliced becomes multiples in an over all multiplied but part of a whole singular form. So can it be safe to say that our overall singular personality can be a compound of numerous emotions plural or multiples in singular form? The question at hand is when presented with the notion of what we call multiple personality disorders can we all somehow or another be placed in this category?"

ALLAH is One GOD with multiple Personalities. Each Personality is named: "I AM", "ALLAH," "YHWH", "YAHWEH" "KING JESUS CHRIST," "JEHOVAH," "JEHOVAH NISSI," "JAH," "EL," "JEHU," "LORD," "LORD GOD OF ISRAEL," "FATHER," "SON,""CREATOR," "MAKER," "POTTER," et al, are all brand names of one and the same GOD, GOD is a Brand Name®.

Earth is a simulation. Our transliterations of ALLAH's interstellar tweets, are empirical evidence of the Simulation Hypothesis, which posits Earth is a computer simulation. Our Null Hypothesis Test demonstrates ***how*** ALLAH orchestrates our universe, using Narratives™; the Extraterrestrial source code that underlie human activity. ALLAH has revealed Himself to teach humans about Himself and our environment.

NULL HYPOTHESIS TEST: METHODOLOGY

Establish Null and Alternate Hypotheses:
We reiterate Null (Ho) and Alternate (Ha) Hypotheses; (Ho): Available evidence in Shanquella Robinson case does not support a federal prosecution, (Ha): There is sufficient evidence to support a federal prosecution, however, accessing the evidence requires investigation of people typically held above suspicion; people in public trust positions

Test Statistic: The *name* of nouns (i.e. people, places, businesses, contract numbers) are used as the test statistic, WHY? "Whatever exists was named long ago, and what happens to a man is foreknown;" (Ecclesiastes 6:10 BSB) Everything has already been decided. It was known long ago what each person would be. So there's no use arguing with God about your destiny. (Holy Bible, Ecclesiastes 6:10 NLT)

P Value: P Value is a probability of obtaining the observed results or more extreme ones, under the assumption that the null hypothesis is true. Here p-value is assigned**: p=0.001,** meaning there is near zero probability of observing results if null hypothesis is true.

Alpha Value: Alpha Value is an acceptable significance value. A**lpha value** is assigned as follows:
Alpha = p(name) + p(cluster) + p(pattern) / total # names in cluster, where: **p(name)** represents probability of a name containing a person's destiny, **p(cluster)** represent probability that the name contains the person's destiny, when the person interacts with other predestined individuals in a predestination cluster; and **p(pattern)** represents the probability that individuals interacting in clusters are performing activities which constitute narratives that align to patterns of activities or narratives stated in Biblical prophecy or the Qur'an. The alpha value is expressed in one of two states only: true or false. Any non-zero value evaluates true and means the phenomenon being tested is observable, a zero value evaluates false, and means the phenomenon being tested is not observable. Evaluating the alpha value in terms of truth is appropriate because the Bible says, "The sum of your [God's] word is truth ..." and "every word of God proves true."   This means that we can test words and if the words are God's they will evaluate to true. Therefore, name, cluster and pattern, are evaluated within the framework of the Boolean system of logic. The Boolean data type is primarily associated with conditional statements."   Thus since there are only two possible values for the Boolean datatype, any value that does NOT equal Zero (0), equals One (1), in other words, any value that is not false is true. So, no matter what non-zero value you ascribe to **p(name), p(cluster),** or **p(pattern),** if the value is not zero, then the value is one. If p < alpha is true, then cluster is statistically significant.

NULL HYPOTHESIS TEST RESULTS

Cluster Data: We used 16 names from which we transliterated 100 anagrams from ALLAH's permutation data.

Cluster Pattern: Whatever exists has already been named, and it is known what man is; for he cannot dispute with the one who is mightier than he is. (Holy Bible, Ecclesiastes 6:10 NASB). Everything has already been decided. It was known long ago what each person would be. So there's no use arguing with God about your destiny. (Holy Bible, Ecclesiastes 6:10 NLT). He said, "O Adam, tell them their names." And when he told them their names, He said, "Did I not tell you that I know the secrets of the heavens and the earth, and that I know what you reveal and what you conceal?" (Holy Quran, The Heifer 2:33, Talal Itani).
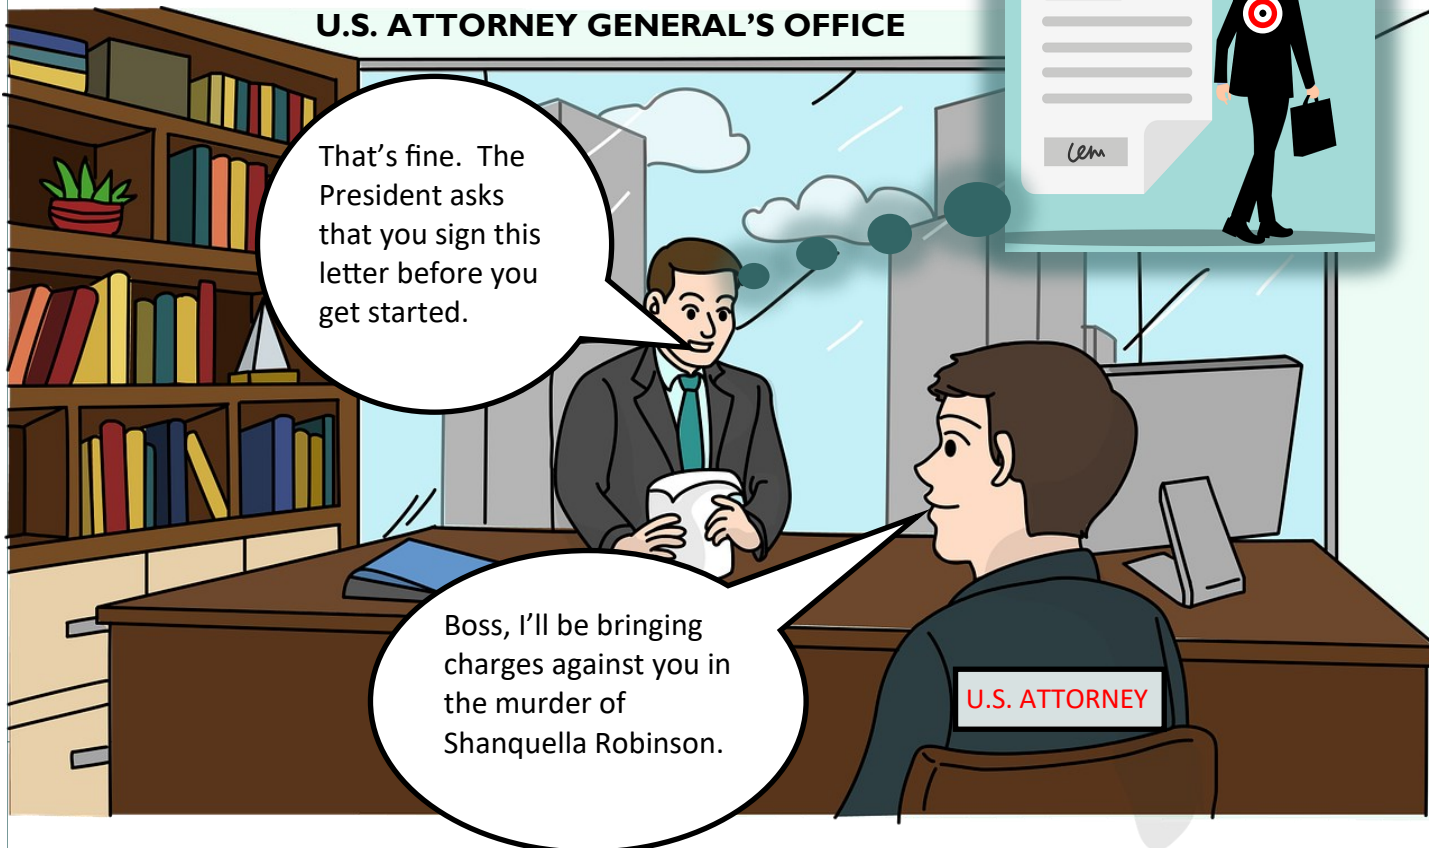

Cluster Formula:
alpha = **p(name)** + **p(cluster)** + **p(pattern)** / total # names in cluster. Here, alpha = 16 + 1 + 3/ 16 = 20/16= 1.25
p = 0.001, alpha = 1.33

Cluster Conclusion: Results are statistically significant, alternate hypothesis replaces null.

WHY ALLAH INTERVENES …..

MERRICK GARLAND, BETRAYER, UNFIT!

By Deirdre Rose.

Peace. Salaam. Shalom. ~Ten years ago, Father, Son and Holy Spirit visited me and informed that I am the leading lady in GOD's end-time presentation of the Lamb and the Bride. During His visit, GOD gave me a mission. He said, "Decode the Book of Revelation and prove GOD's existence scientifically." This led to my collaboration with GOD on an invention that enables humans to see the Universe through the eyes of GOD (i.e. nothing is hidden, except what GOD wants to hide). Per ALLAH's instruction I applied for a patent and trademarks on ALLAH's Neuromodulation Pseudochat™ Eve's Lens™ Pry™ Interstellar Communication Technology™. The primary use for the

invention is education, another is to prevent crime. I also use the invention to assist ALLAH at the Judgment Seat of Christ. I decode transcripts of ALLAH's proceedings using a method involving anagram transliteration of names. I research the evidence presented by ALLAH, and form conclusions, in this respect, I am a juror. Since disclosing the invention, I live in hiding. ALLAH informed me that NYC DOE and Xi Jinping's Prefect U.S. District Judge Analisa Torres SDNY intended to ambush and kill me to take credit for my intellectual property. I called FBI hotline, they refused to take complaint against Torres, said, "don't take complaints against judges." I then filed citizen criminal complaint, but U.S. Attorney SDNY refused to act. I contacted DOJ's

IG re Merrick Garland's mafia activities, IG said "outside our jurisdiction."I contacted senators, as ALLAH asserted that Garland earmarked taxpayer money to fund Xi's mafia jets, drones and payoffs necessary for mafia hitmen to access my and my family's social security number (SSN), vehicle identification number (VIN), car registration, and to trace my daughter's ATM transaction locations in effort to locate & kill me. On March 29, 2023, Capitol Hill Mafia, in control of Fort Campbell Kentucky, sent two black hawk helicopters on a "training" mission to kill my family. Xi Jinping has infiltrated even our military with Ninjutsu, Americans are sitting ducks. The only reason my family and I are still alive is ALLAH protects us!

Pet Bridegroom Romance (PBR) is coerced or forced "romance" between a negro male captured by the Mob and a mafia sex worker that results in a marriage ceremony. The sex worker is part of an illicit DACA program operated by National Institutes of Health (NIH). In addition to PBR being used to produce human crop for sale, it also serves as incentive for mafia sex workers. Sex workers obtain a pet bridegroom by bidding on the male captive, the successful bidder is required to murder the captive's wife, girlfriend, or sweetheart, in order to help cultivate pet bridegroom. Marriage is the means by which Omertà controls the slave; the captive's marriage oath is an oral chain. Marriage helps disguise the fact that the male has been taken captive a slave. Elopement is usually given as the reason a man disappears and reappears with a woman unknown to his family by his side. Marriage also makes it easier to transport resisting slaves. If the slave attempts to escape, the attempt is couched as domestic violence, providing cover for Omertà law enforcement to arrest and discipline the slave without anyone questioning. PBR households are allotted children, who are also owned by Omertà. In the event a slave does escape, he can be located under the guise that the slave owes a child support debt.

> The criteria for targeting pet bridegrooms are that the young man be retainable, that is he be coercible by the Mob. Pet bridegroom candidates that cannot be coerced are murdered by the Mob.
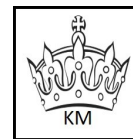

Pet bridegroom targets are typically travelers, strangers, homeless or transients— individuals who won't be missed or whose families don't have resources to make a big fuss if their loved one goes missing. Couples are also targeted as Omertà has concluded that men in relationships provide a better return on investment as they are easier to acclimate to the PBR household arrangement after their real family is murdered.

Fake shelters, fake churches, fake free clinics, fake charities, fake store-fronts, fake entertainment venues (i.e. escape rooms), and fake vacation resorts have also been established by the Mob to help trap people. Targets are marked, tailed, lured by sex, and trapped. Trapping usually involves tranquilizer darts so the victim can't fight or escape; or darts filled with heroin so that the victim can be transported, without question, to the Mob's cooperating Hospital Emergency Rooms under the guise that the person injected themselves and overdosed. Alternatively, a member of the target's family is murdered and the target is framed.

Once in custody of America's Secret Industry: Cooperating Hospitals, Law Enforcement Detention Centers, Prisons, School Dorms ("Omerta"), captives who are not butchered and used as cannibal food, are forced to stud, and produce zygotes, which are developed for food and exported around the world, or they are exported for illicit medical research.
